DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 3 July 2003 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.
2. A copy of the pending patent application 09/461,625 was not included and cannot be located by the examiner.

Double Patenting

3. Claims 1-5, 13-17 and 30-33 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 8, 9 and 20 of U.S. Patent No. 6,771,664. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 1, 13, 30 and 31 of the instant application merely broaden the scope of claims 1, 8, 9 and 20 of the Patent by eliminating the elements and their functions of the claims. It has been held that the omission of an element and its function is an obvious expedient if the remaining elements perform the same function as before. *In re Karlson*, 136 USPQ 184 (CCPA). Also note *Ex parte Rainu*, 168 USPQ 375 (Bd. App. 1969); omission of a reference element whose function is not needed would be obvious to one skilled in the art.
4. The remaining claims can be similarly rejected.
